

Learn to Sail this Summer!

Safety

From the first day the sailor enters the sailing school environment, safety is our number one concern. It is incorporated into every aspect of our learn to sail program.

Learning

The best way to learn is hands on! Right from the first day, all sailors are in the boats and on the water. In the event of inclement weather, there is on-shore theory, testing and extracurricular activities.

Spirit

We take our teaching seriously, but fun and discipline are key ingredients to learning in all our programs. There is a wonderful spirit throughout the whole program where good times prevail and friendships develop.

Time

Time is the variable in the development of skills in any sport program. Discuss with your instructor your goals and how you are progressing towards them.

You will need:

- Approved Personal Floatation Device (lifejacket)
- Lunch each day
- Hat & sunglasses
- Quality sunscreen
- Old running shoes (barefoot in a boat is dangerous)
- Layered clothing
- Extra clothing/shoes to change into (sailing is wet)
- Bathing suit
- Wind proof jacket (for cool days)

Hours

Youth-

Day classes for Youth are held weekdays (including all holidays) from 9 a.m. to 4 p.m.
Advanced sailors will train on site from 8:30 a.m. to 4:30 p.m.

Adults-

Evening classes for adults are held Monday & Wednesday evenings from 6 p.m. to dark.

Sailing is a life-long sport that may be recreational, competitive, a team sport or a solo endeavour. Whether you want to sail around the bay, or sail the world, you can start your adventure with us.

Optimist (1 week)

This is a one week introductory program for young sailors ages 7-9 who wish to begin exploring sailing. Learning in a safe environment is the main consideration. In all activities, on and off the water, the attitudes and readiness of the young sailor are kept in mind before proceeding to the next stage of development.

Basic Sailing Skills (2 weeks)

This is the beginning program for most sailors. Through games and activities, sailors will learn the basic terminology, knots, and rules of the water. On the water, they work on boat safety and basic sailing skills. It is suggested that sailors at this level be comfortable in and around the water. It is recommended that the sailors be at least nine years old to get the greatest benefit from the program.

Advanced Sailing Skills (4 weeks)

This is a comprehensive program for sailors to master the use of trapeze, spinnaker, advanced boat handling and learn the principles of boat and sail design.

Also a great opportunity for those seasoned sailors who would like to gain more experience before racing.

Development Race Team (8 weeks)

This program offers an introduction to competitive sailing, focusing on developing the athlete's performance and maturity. Typically the racers hold advanced sailing skills and a strong love for the sport.

Competitive Race Team (16 weeks)

The coach's focus is on maximizing an athlete's performance through theory and physical training. Athletes will train and compete in the 29er class dinghy with a highly experienced 29er specific coach.

Adult Sailing – Dinghies

(MW evenings, for 4 weeks)

Dinghies are used in this program based on our basic and advanced sailing skills programs. Sessions begin the first Monday of June, July, & August at 6 p.m.

Adult Sailing – Keel

(MW evenings, for 4 weeks)

BS&BC Shark will be used. The program is based upon learning basic sailing and cruising skills. Participants in this program will work towards the "Shark Program" checklist. Upon completion of the checklist, you will be eligible to sign up for the Club Shark Program.
